Model MX420

Adjustable Width Portable Wheelchair Scale

An excellent choice for the facility that occasionally needs to weigh people in wheelchairs. The dual rails adjust in width to accommodate most wheelchairs. For mobile patients, the scale makes a convenient chair scale - simply place a chair on the rails and you are ready to weigh. Also great for the visiting nurse - it is lightweight and easily fits in the trunk of a car.

When folded for transport, the console and scale store inside carry case (included) and the entire package can be stored in a corner of a closet.

Note: The MX420 is recommended for use on hard flooring surfaces only.

Width adjusts from 16-3/4" to 35-1/2"

FEATURES/SPECIFICATIONS

Adjustable-width rails: Conveniently slide to accommodate a variety of wheelchair widths.

Ergonomic folding design: Folds in half for easy transport..

Battery powered: Allows maximum portability.

MotionLock Technology: Accurate weight even with an unsteady user.

LB/KG Lockout: Quickly change setup to disable LB/KG button so scale will only weigh in selected unit of measure.

New Smart View Display: Displays only the information you need - weight only or weight, height, and BMI.

Scale folds up and stores in nylon carry case for easier transport and storage.
