Model MX480 Single Ramp Scale
Model MX480D Dual Ramp Scale
Model MX490D Extra Deep Dual Ramp Scale
Folding Wheelchair Scale with Handrail

These scales feature an oversized platform designed to accommodate today's wide wheelchairs, and can be quickly folded and safely wheeled to a new location. Three versions are available: a single ramp model (MX480); a dual ramp model (MX480D); and an extra-deep 41" dual ramp version (MX490D) that allows even more room for the widest wheelchairs. The ramps fold up for use as a stand-on scale.

The heavy-duty integrated handrail is standard on all models and can be grasped by patients while still providing an accurate measurement. The display console is integrated into the handrail so that no wires are exposed, and it rotates for the best viewing angle. The stored tare function facilitates one-button retrieval and subtraction of a wheelchair weight to quickly determine patient's net weight.

Folded scale rolls effortlessly to the next location on four hidden wheels, two of which pivot. Simply grasp the handrail and push, just like a shopping cart.

Befour products are made with pride in the USA!

Scale easily folds into a small footprint (32" x 12") that rolls on four wheels (two steerable). The folded scale is self-supporting for safe transport and storage, and will fit through all doorways.

Shown: MX480 with 32" x 34" platform and the MX490D with 32" x 41" platform. (Ramps are in the folded position.)

MX480, MX480D, & MX490D FEATURES/SPECIFICATIONS

Integrated Handrail: Patient's weight is accurately calculated even when using the handrail.

Pivoting Console: Pivots 320° for optimal viewing.

Folding Design: Platform folds up to take less space.

Fully assembled: Arrives ready to use.

MotionLock Technology: Accurate weight even with an unsteady user.

LB/KG Lockout: Quickly change setup to disable LB/KG button so scale will only weigh in selected unit of measure.
